

BLACK CREEK TOWNSHIP SUBDIVISION / LAND DEVELOPMENT APPLICATION PACKAGE:

To all applicants:

1. Enclosed are the required materials to be submitted along with a new Subdivision and/or Land development submission.
2. All submittals must comply with all of the submission requirements of the Black Creek Subdivision and Land Development Ordinance.
3. Additional information may be required by Black Creek Township during the review process.
4. Should you have any questions concerning this material, please contact the municipal office at (570) 384-3206.
5. Plans, applications, reports and supporting documents are due at the Township Municipal Building **TWO WEEKS PRIOR** to the next Planning Commission Meeting. Specifically, all information must be received by the Township on Thursday, 14 days prior to the meeting, by 2:30 p.m.
6. **Revised** plans, applications, reports and supporting documents must be submitted to the Township **ONE WEEK PRIOR** to the next Planning Commission Meeting. All information submitted after this deadline will not be considered until the meeting held the following month.
7. There are no exceptions to this policy.
8. The Black Creek Planning Commission meets on the first Tuesday of the month as needed at the Black Creek Township Municipal Building at 6:00 p.m.
9. All correspondence to be mailed shall be mailed to the following address:

**Black Creek Township Municipal Building
1980 Tomhicken Road
Bloomsburg, PA. 17815**

BLACK CREEK TOWNSHIP

FEE SCHEDULE

SUBDIVISION AND LAND DEVELOPMENT

1. Minor Subdivision- \$500.00 plus \$10.00 for each lot or dwelling unit.
2. Major Subdivision- \$2,000.00 plus \$10.00 for each lot or dwelling unit.
3. Site/Land Development Plan- \$2,000.00
4. In addition to the filing fees set forth above, the applicant or developer shall individually or jointly be responsible for paying all review and inspection fees incurred by the Township. These fees include:
 - (a) The cost of the Township Engineer and other professionals to perform the following services:
 - Review of plan
 - Site Inspection
 - Preparation of cost estimates for required improvements
 - Inspection of required improvements during the course of construction and installation of said improvements
 - Final inspection of the subdivision and/or land development and the required improvements contained therein
 - (b) Review and inspection fees will be charged by the Township at the current hourly rate being billed to the Township by the Engineer and other professionals at the time of the work, review or inspection.
 - (c) The review and inspection fees will be billed by the Township monthly and the applicant or developer shall be required to pay those bills within thirty (30) days from the date they are billed.
 - (d) With each plan and at the time of application, the applicant or developer must pay to the Township an escrow fee of \$300.00 for a minor subdivision plan and \$750.00 for a major subdivision/land development plan. The escrow funds will be used to pay for the professional services being billed by the Township with any excess being refunded to the applicant or developer within sixty (60) days from the date the final plan has been approved and recorded.

MINIMUM REQUIRED ITEMS FOR A COMPLETE SUBDIVISION AND LAND DEVELOPMENT SUBMISSION

NOTE: The following are the minimum items required for Black Creek Township to deem an application complete. Any item not submitted (if applicable) is reason for the Township to return the submission package to the applicant and deem the submission incomplete. Please be advised that a project will not be added to the Planning Commission Agenda nor will an engineering review will be conducted until a submission is deemed completed by Black Creek Township. Also, it is the responsibility of the applicant to submit all information to all required outside agencies. See Black Creek Subdivision and Land Development Ordinance and Subdivision / Land Development Application for additional submission requirements.

1. Two (2) copies and one (1) digital copy of a completed Black Creek Township Subdivision/Land Development Application and Stormwater Management* Application (if applicable)
2. Two (2) copies and one (1) digital copy of the deed for the property. (Proof of Ownership)
3. Application fees for Black Creek Township Subdivision/Land Development Plan, Black Creek Township Stormwater Management Plan* (if applicable) and the Black Creek Township Escrow Fee.
4. Seven (7) sets and one (1) digital copy of Subdivision/Land Development plans certified by a surveyor and/or engineer. The plan must include Soil Erosion and Sediment Control Plans** and Stormwater Management Plans* (if applicable).
5. Seven (7) copies and one (1) digital copy of all calculations, applications, documents and/or reports.
6. Two (2) copies and one (1) digital copy of any zoning approvals (if applicable).
7. All additional items required by the Black Creek Subdivision and Land Development Ordinance and the Black Creek Application Package.

** All regulated activities and all activities that may affect stormwater runoff, including land development and earth disturbance activity, are subject to regulation by the Township's Stormwater Management Ordinance. Regulated activities include but are not limited to: the clearing of wooded areas, grading and excavating, placement of pavement (driveways, parking areas, roads), construction of buildings, construction of new stormwater management facilities, diversion or piping of any natural or manmade stream channel, the construction of other structures (homes, sheds, garages, commercial and industrial buildings), and other activities which alter the way stormwater runs off of the landscape. Depending on the amount of impervious area placed and the amount of earth disturbance to the project site, the Township's Stormwater Management Ordinance requires different levels of stormwater management, and correspondingly different levels of design and review.*

*** 25 Pa. Code § 102.2 requires persons proposing or conducting earth disturbance activities to develop, implement and maintain BMPs to minimize the potential for accelerated erosion and sedimentation and to manage post construction stormwater. Earth disturbance is defined as a construction or other human activity which disturbs the surface of the land, including land clearing and grubbing, grading, excavations, embankments, land development, agricultural plowing or tilling, operation of animal heavy use areas,*

timber harvesting activities, road maintenance activities, oil and gas activities, well drilling, mineral extraction, and the moving, depositing, stockpiling, or storing of soil, rock or earth materials.

FACT SHEET
CLUES TO WETLAND IDENTIFICATION FOR DEVELOPERS,
CONTRACTORS, SURVEYORS, FARMERS AND LAND OWNERS

Wetlands are areas where ground and/or surface water lingers for at least brief periods during the growing season.

In Pennsylvania, wetlands are protected by both state and federal regulations. Wetlands are valuable because they function as ways that benefit the natural world, including the human community.

DEP PERMITS MAY BE REQUIRED

WETLANDS DELINEATIONS MAY BE REQUIRED AS PART OF YOUR SUBDIVISION SUBMISSION.

ARE WETLANDS PRESENT ON YOUR SITE? Make a walking inventory of fields, forests, and woodlots, answer the following questions:

Yes **No**

- | | | |
|--------------------------|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | Are there open bodies of water, ponds, lakes, streams, or reservoirs? |
| <input type="checkbox"/> | <input type="checkbox"/> | Are there natural drainage channels (permanent or temporary)? |
| <input type="checkbox"/> | <input type="checkbox"/> | Is the ground soggy or spongy under foot at any time during the growing season?
(growing season in this area 4/15 – 10/15 according to DER Hydrology map) |
| <input type="checkbox"/> | <input type="checkbox"/> | Are there “low spots” or depressions where water lies or pools for more than seven days during the growing seasons? |
| <input type="checkbox"/> | <input type="checkbox"/> | Are swales, springs, or seeps present? |
| <input type="checkbox"/> | <input type="checkbox"/> | Are there areas you will not cross by vehicles, tractor or other machinery for fear of “getting stuck”? |
| <input type="checkbox"/> | <input type="checkbox"/> | Has the site been “ditched” or “tiled” in spots to “dry it out”? |
| <input type="checkbox"/> | <input type="checkbox"/> | Do some plants have roots growing from their stems above the soil line? |
| <input type="checkbox"/> | <input type="checkbox"/> | Do you see these plants: cattails, sedges (frequently with triangular stems), iris (flags), arrowheads, joe pyeweed, touch-me-not (jewelweed), rushes, sensitive fern, ironweed or skunk cabbage? |
| <input type="checkbox"/> | <input type="checkbox"/> | Do you see these trees or saplings: willows, red or silver maples, box elders, black or green ash, sycamore, or black gum? |
| <input type="checkbox"/> | <input type="checkbox"/> | Are tree trunks expanded or swollen at the base? |

- Are the trees “blown down” (windthrows), exposing a shallow but extensive root systems?
- Are any of these shrubs present: blueberry, bush type dogwoods (for example, red osier), alders, buttonbush, or spicebush?
- Cleared areas where water has scoured the surface and removed the plants?
- Places where fallen leaves are discolored gray or black?
- Site/sedimentation deposits on decaying leaves lying on the ground or on lining plant leaves, or on stems or tree trunks?
- Drift lines (wrack lines) where sticks, leaves, and other water-carried debris have lodged along a contour or at the base of vegetation?
- Is there a dark brown layer of organic matter, over two inches thick, on the soil surface?
- Does sphagnum moss (a lush, green, juicy moss) cover the site?
- Digging to a depth of 18 inches, is the soil color gray, gray-blue, or gray-green or marked with spots, streaks, or lines of different color? Note: In agricultural fields these characteristics are observed below the plow-line.
- Does a soil test pit (hole dug to 18 inches) fill with water or does water “trickle down the sides”?

If you have answered “yes” to any of these questions, a wetland may be present on your project site or property. Further information/assistance is available, seek the advice of professionals. Observe! Ask questions! Be alert to changes in state and federal regulations! Be aware of local regulations/ordinances! Seek professional advice at state, federal and private levels! It is important to note that permits are normally needed before you perform any work in a wetland. Contact: Area Offices of DEP’s Dams and Waterway Management, DEP’s River and Wetlands Conservation Office, your local County Conservation District Office, or Soil Conservation Service Office and the appropriate Army Corps of Engineers District Office.

A confirmation letter from DEP stating that no permitting is required must be provided if you answered yes to any of the above questions.

I verify that the statements made on this fact sheet are true and correct to the best of my knowledge, information and belief. I understand that false statements are punishable by law.

Signature)

SEWAGE FACILITIES PLANNING MODULE

1. Applicant must first request an application mailer from DEP or obtain the mailer from their website:
www.depweb.state.pa.us/

Department of Environmental Protection
2 Public Square
Wilkes Barre, PA 18701-3296
(570) 826-2511

2. Complete the application mailer and return
3. Tailored Sewage Facilities Planning Module will follow

Please be advised that Sewage Planning of some type must be completed for all proposed subdivisions (and most Land Developments) in Black Creek Township.

Black Creek Subdivision and Land Development Ordinance Modification Request Guidelines:

Any modification request must be done in writing and must contain the following information at a minimum:

1. Name of Project:
2. Modification Request Number:
3. Name of Applicant:
4. Section of SALDO:
5. Description of SALDO Section:
6. Description of Modification Request:
7. Is the Modification Request the minimum modification necessary to provide relief?
Please explain.
8. Justification for Relief (Provide explanation with all answers):
 - a. Is the SALDO section unreasonable or cause an undue hardship as it applies to the subject property?
 - b. Does the SALDO section prohibit reasonable utilization of the property?
 - c. Does the alternate proposal provide equal or better results than the SALDO Section?
 - d. Has public interest and safety been secured?
9. Will relief to the SALDO section alter the overall intent of the SALDO? Please explain.
10. Name of representative presenting request at the Planning Commission Meeting.
11. Note: A modification request **WILL NOT** be considered for approval unless the request has been submitted in writing in conformance with these guidelines **AND** a representative presents the request at a Planning Commission Meeting.
